Item 7.01 Regulation FD Disclosure

Historical Card Member loan, delinquency and write-off statistics for USCS, U.S. Small Business and Card Members loans related to cobrand partnerships with Costco Wholesale Corporation in the U.S. and JetBlue Airways Corporation (the “HFS Portfolios”) are attached as Exhibit 99.1 to this Current Report on Form 8-K and are incorporated herein by reference.

^(a) Net write-off rate based on principal only (i.e., excluding interest and /or fees).

^(b) Reflects the impact of U.S. Consumer and Small Business Card Member loans reclassified as Card Member loans held for investment from Card Member loans held for sale on the Consolidated Balance Sheets, which totaled \$214 million, \$184 million and \$160 million as of July 31, August 31 and September 30, 2016, respectively. Excluding those loans, adjusted 30 days past due loans as a % of total, a non-GAAP measure, was 1.0% for both USCS and U.S. Small Business as of and for the month ended September 30, 2016 and the adjusted net write-off rate – principal only, a non-GAAP measure, was 1.4% and 1.3% for USCS and U.S. Small Business, respectively, as of and for the month ended September 30, 2016.

The statistics presented above provide information that is additional to the data reported by the American Express Credit Account Master Trust (the "Lending Trust") in its monthly Form 10-D report filed with the Securities and Exchange Commission. The Card Member loans that have been securitized through the Lending Trust do not possess identical characteristics with those of the USCS or U.S. Small Business Card Member loans. The reported credit performance of the Lending Trust may, on a month-to-month basis, be better or worse as a result of, among other things, differences in the mix, vintage and aging of loans, including with respect to Card Member loans acquired by the Lending Trust on June 1, 2016 (none of which were past due at the time of acquisition), the performance of Card Member loans reclassified as Card Member loans held for investment from Card Member loans held for sale on the Consolidated Balance Sheet, the use of end-of-period principal loan balances to calculate write-off statistics in the Lending Trust compared to the use of average loan balances over the reporting period used in the statistics of the USCS and U.S. Small Business Card Member loans, as well as other mechanics of the calculation for the Lending Trust net write-off rate, which is impacted by any additions to the Lending Trust within a particular period.

Set forth below is certain information regarding the credit performance of the Lending Trust for its three most recent monthly reporting periods, as reported in its Form 10-D report filed with respect to each such period.
